## THE COUNTRY.

### A Bird's Eye View of the Kentucky Situation

### Through the Great Glasses of the Daily Medium.

### TAYLOR AMAZES THEM ALL.

#### ALMOST BEYOND BELIEF.

Like his attempt to remove the Legislature to London, these acts of Taylor show his utter contempt for law. That a man calling himself Governor should use the militia to protect men charged with conspiracy, to murder from arrest is almost incredible. If they can not secure a fair trial, the courts of Kentucky must bear the odium, but there is nothing to prove that such is the case.—Buffalo Courier, Dem.

#### TAYLOR PUSHES THE WORK ALONG.

The crack of the rifle that sent Goebel to his end began the unification of the Democrats and the division of the Republicans, and since, by every act of omission and commission, Taylor has pushed the work along. Kentucky's "mountain" Governor has practically killed his party in his State.—Des Moines Leader, Rep.

#### A WRONG WITH UT A REMEDY.

Without calling in question the honesty of Judge Field's decision, it appears to be a clear case of a wrong without a remedy. If the Court of Appeals, composed of three Democrats and two Republican Judges, sustains Judge Field's view of the case presented to him, why that ends it.—Washington Times, Dem.

#### TAYLOR'S SHARE OF GUILT.

Taylor, the man who signed those bogus pardons, is as guilty, if circumstantial evidence avails anything, of conspiring to assassinate Gov. Goebel as is either Powers or Davis. Under the law of conspiracy, he is guilty of murder as the mercenary who fired the rifle that killed Goebel.—Kansas City Times, Dem.

#### AN INCENDIARY DOCUMENT.

Gov. Taylor has seen fit to issue a statement about the new document, which seems ill-advised in its assault upon the State courts, charging that they "have become so partisan that it is practically, if not absolutely, impossible for any man not of their (Democratic) persuasion to obtain a fair trial." This may be true but it does not become the Governor of the State who has appealed to them to decide upon the legality of his own title to office to say it. In fact, the Governor's entire statement comes very near to being an incendiary document, and in the inflamed condition of the public mind, with the leaders on both sides calling for troops, it would have been much wiser for him to have kept silent and abided by his agreement to leave the whole matter in the hands of the courts.—New York Commercial Adviser, Rep.

Baby's coming should be a time of joy and happiness. Fear should be forgotten and pain a stranger. How often is it so? As the time approaches how often the

poor expectant mother is nerve-racked and pain-ridden—fearing and almost suffering death. It isn't right. Nature never meant it to be so. If the mother were strong and well in a womanly way, as she ought to be, there would be no danger and little pain. The time of parturition is made comfortable and safe by the use of Dr. Pierce's Favorite Prescription. It is a medicine designed by a skilled physician—a specialist in the diseases of women—for the express and only purpose of putting the whole womanly system into perfect, vigorous health. It works directly on the organs involved in baby's advent and makes them strong, healthy and flexible. Taken during the whole period of gestation it insures the perfect health of both mother and child.

Mrs. Mollie E. Grimes of Pleasant, Beaumont, Cal., writes: "I have won three bottles of your 'Favorite Prescription' and one bottle of your little 'Pain-Expeller' and oh, what an appetite they did give me. My baby is now three months old and weighs fifteen pounds and is half. When she was born she was the fattest little baby girl you ever saw. She was the largest one of my family. I have never had an easier and shorter time than I ever had. I am stronger and healthier, I feel better, and I am able to do what you desire. May God bless you and your good medicine."

For obstinate constipation Dr. Pierce's Pleasant Pellets are the most perfect medicine ever devised. They give prompt, comfortable, permanent relief.

is a fair trial." This may be true but it does not become the Governor of the State who has appealed to them to decide upon the legality of his own title to office to say it. In fact, the Governor's entire statement comes very near to being an incendiary document, and in the inflamed condition of the public mind, with the leaders on both sides calling for troops, it would have been much wiser for him to have kept silent and abided by his agreement to leave the whole matter in the hands of the courts.—New York Commercial Adviser, Rep.

#### CRIMINAL.

Gov. Taylor's attempt to pardon men before they have been tried or even indicted for the crimes of which they are charged is sheer nonsense, of course, and his use of the militia to prevent the arrest of these men seems criminal.—Nashville Banner, Ind.

#### RESISTANCE MUST BE SHORT.

As nearly as we can judge at this distance, Taylor is without much active support in any quarter, save that of one great corporation and the band of the mountains. If this be a correct view, his armed resistance must be short and confined to the disaffected section, to which it is believed he intends to go, carrying with him the public records.—Washington Times, Dem.

#### MOTIVES KNOWN.

Taylor, of Kentucky, has entered into a long explanation why he objects to the arrest of certain officials on the charge of being implicated in the murder of Goebel. An explanation was unnecessary. Every one knows his motives.—Poria Herald, Dem.

#### "It."

Not only is an honest man the noblest work of God, but Mr. Taylor, of Kentucky appears to be "it." The returning boards are honeycombed with fraud: the Election Commissioners would rather drop dead than be caught doing a reputable act; the Legislature is unspeakably vile; the courts are putted beyond the power of man to describe. Nothing in all Kentucky is pure and noble except Mr. Taylor, and in view of the unprecedented condition of affairs, he has generously volunteered to act as the State Government. He is discharging the duties of Governor in spite of the fact that he has no legal title. With such a benevolent ruler there is no need for a Legislature; so Mr. Taylor prevents the Legislature from acting. The courts being rotten, it would be a terrible calamity if they were allowed to do business, so Mr. Taylor takes it upon himself to perform their functions. Nothing more extraordinary than the conduct of Mr. Taylor has ever been witnessed in American politics, and that gentleman's performance becomes the more remarkable as time flies. Mr. Taylor is by far the most amusing baseness Caesar that ever reared his head in a republic.

#### Sideviews of Life.

The night-key always has the hardest work to do in the morning.

A standing joke may not require a seat, but there are times when it should be shivered.

The dentist finds work for his own teeth by depriving other people of theirs.

Some men seem to think that a woman's mission is submission.

A splinter says she loves cats because they are treacherous, like men.

An underwriter says the eyes of women kindle the only flames against which there is no insurance.

An egotist is a man who imagines he is in good company when alone.

Boss Hanna is quoted as being in doubt between Steve Ekins and ex-Secretary Bliss, for second place on the McKinley ticket. If that be true, Ekins will get it, as he is a man of the Hanna stripe.

Secretary Hay's Americanism is already questioned by many, and if he doesn't do less kicking about the Americanizing of the Nicaragua Canal treaty, it will be questioned by everybody.

### FART, TERSE AND TIMELY.

Ben Harrison's load of boom ice melted as soon as the rays of the sun of publicity reached it.

No good Democrat, in or out of Congress, will ever vote to pension deposed rulers of annexed countries.

Congressman Smith, of Kentucky, says Taylor will be put out of the State House, if it takes every gun in the state to do it.

Chicago's new labor war, which the strike has been aptly called, may grow into serious proportions and be extended to other places.

Republican troubles over the Porto Rico Tariff bill will make the affairs of that island a sore subject among them for some time to come.

The t-nets will have to get after the Ohio Supreme Court which has affirmed the right of a stockholder to examine the books of a corporation.

The Filipinos have been doing some more hard fighting, which doesn't square with the repeated statements of Gen. Otis, that the war was over.

Post-master General Smith is said to expect to become Secretary of State if Mr. McKinley throws Hay overboard in order to please the anti-Eglish Republicans.

Mr. McKinley says the French reciprocity treaty must be ratified; a strong coterie of Republican Senators say it shall not be ratified. That is the present status of the treaty.

The country would appreciate a statement from the Administration of what it intends to do about the anti-American meat bill, which has been passed by the German Reichstag.

### Open Session by the Mt. Sterling Woman's Club.

The Mt. Sterling Woman's Club held an open session at the home of Miss Annie Samuels, Tuesday afternoon. The object of the meeting was to give to the friends of the club an opportunity of witnessing the literary progress of its members, and to stimulate greater interest in the club work. No greater effort was made in the preparation of the papers than for a regular meeting. The music was in charge of a special committee. The following program was given: Duet—"Holiday Spirits" by Master Harry and Miss Samuels. Sketch—"Famous American Singer" by Mrs. Nelson Trimble. Vocal Solo—"Bunch of Violets" by Miss Eliza Samuels. Paper—"Juvenile Literature" by Mrs. Aoward French. Vocal Solo—"The Gift" by Mrs. James Pickrell. Sketch—"James Russell Lowell" by Mrs. James Kennedy. Vocal Solo—"A Dream" by Miss Flora Samuels. Paper—"American Song Writers and Composers" by Mrs. Clayton Howell. Piano Solo—"Recollections of Home" by Mr. Harry Samuels. The club has a membership of twenty-one and meets every other Tuesday afternoon at the homes of the members, and is engaged for the present winter, in the study of American history, literature and art.

### INTERESTING FACTS.

### Important to the Farmers—Benefits of Tile Drainage.

In this short account, we can not set forth all particulars of the advantages of the drainage, but will conclude to most important points. Water in the soil in the country in 1831 and was brought from the old country. It has now reached every section of our country to some extent. Tile drainage has brought out blooming gardens and productive fields from swamps and mis-matched bogs, in our great Western level country. Will now submit for your consideration, how and why it has accomplished so much.

The mission of the tile is to take away the water, which warms the soil, by settling the rainfall which is warmed on the surface of the ground, which warmth is communicated to the earth as it passes down to the tile. Heat and moisture are two necessary elements to vegetation. Experience has shown that drained soil is on an average of some ten degrees warmer at a depth of seven inches, than un-drained soil. Heat and moisture are necessary to the germination or sprouting of seeds and the growth of plants. While in the absence of these elements, the seed would be dormant in the ground and finally decay.

The soil being made warmer, the season for planting becomes earlier, and lengthens the season, while soil being at all times in proper condition, vegetation thrives continuously. The fertility of the soil is conserved on drained land, for the water, instead of rushing over the surface to a lower level, carrying the enriching matter, descends, slowly, through the open interstices of the earth, carrying the fertilizing ingredients with it to the roots of the plant. Observation has shown us that the soil needing the most drainage is the most compact, being made so by water. Plant food in solution will be largely retained in the soil, while the water will slowly filter through it and run clear from outlet of tile. Drainage lowers the water level, encouraging the roots of the plant to penetrate below the effects of summer drought, securing the free admission of air, which is also essential to plant growth. Tiling prevents floods to some extent, as it lowers the water level. The action of the water, seeking the tile below, leaves the earth full of innumerable pores, which hold the water till it finds its way, slowly, down to the tile, enriching the rootlets of plant life with the salts of the air which the rainfall precipitates. We have observed that on tiled land, the surface dries out very rapidly after rainfall, but the top of the soil, dried, is very spongy. These dried parts act as a mulch over the surface, preventing too rapid evaporation, and causing the little rootlets to penetrate the arable soil seeking nourishment and strength necessary to plant life. This same condition of soil prevents early freezing in autumn or the thawing and freezing in early spring so injurious to wheat. Plant life demands air as well as heat and moisture, every one knows how essential plowing is for a corn crop. The leading of the water downward opens the soil, admits warmth, increases its depth below the young roots of the plants. Cold wet feet for plant life is as fatal as for human life.

Applying the same principle, that if fertilizers are applied to land it is not washed off on the surface for the porosity of the earth retains it as already shown.

The drainage is beneficial in dry weather for the reason the pores in the ground made by action of the water become breathing holes, centering on the tile in numberless cases; these pores connecting the tile with the surface of the ground act as little chimneys or breathing holes which create a draft through the soil. This brings the night air, laden with moisture, in contact with the soil, is cooler than the air and causes the dampness to be taken up by the soil, and communicated to the roots of vegetation.

Tile drainage has made low marshy lands of the great West more favorable

for human existence, improving the sanitary conditions, resulting in the breathing of pure air, in lieu of poisonous vapors, and has reduced the much dreaded chills to a minimum, and the price of quinine as well. Much more could be said, but this we will leave to every conservative possessor of low and swampy lands. What it has done for the West will do for you. Note the fertility of swamps; they have made the most productive by tiling.

Our brick and tile factory, situated at Salt Lick, Ky., has met with reasonable success, being patronized by some of the leading men of this community, who can be referred to. But being desirous of introducing it farther, we cordially invite all interested parties to give us a call.

### Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys once every three minutes. The kidneys are your blood purifiers, they filter out the waste or impurities in the blood. If they are sick or out of order, they fail to do their work. Pain, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble.

Kidney trouble causes quick or uneasy heart beat, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries.

It used to be considered that only urinary troubles of the most distressing cases and its sold on its merits by all druggists in fifty-cent and one-dollar sizes.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and extraordinary effects of Dr. Kilmer's Swamp-Root, the great kidney remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases and its sold on its merits by all druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mailing Home of Swamp-Root, also pamphlet, telling you how to use it. If you have kidney or bladder trouble, mention this paper while writing Dr. Kilmer & Co., Piquette, N. Y.

HIS DYING WORDS

"Tell my friends to be brave and fearless and remain loyal to the great common people."  
—Gov. Wm. Goebel.

J. C. W. BECKHAM

NO, I THANK YOU.

President McKinley wrote a letter to our English kinsfolk and told them he would be pleased to help them let go of the Boers. To which our kinsfolk responded: "No, I thank you, we can manage this little job." Doubtless they had been watching the spirit of Mack in the Cuban-Spanish fray when he told the boys, "By your consent we'll come over and attend to the Spaniards." Our English people may have observed that when the Spaniards had been attended to that Mack proceeded to jump on the little folks and take what they had and since the English are somewhat akin to hogs they had no idea of accepting the United States peace proffer and then have to divide what they took from the Boers. The English are alive on these lines and McKinley's amateur methods make no scoop with them.

Had this unpleasantness occurred during the Democratic administration, Cleveland would have come in from a memorable duck hunt, set his gun down in the corner, picked up a scrap of paper and written thusly: "My dear John Bull, if you don't let those little boys alone I'll twist your tail off," and that would have been the end of it.

England may have looked further and realizing our mix-up over in Manila might have reasoned this way: Should we accept this peace intervention, then as a matter of courtesy we would have to take part in that mix-up in which the Filipino rosters are giving the United States a powerful sight of worry, so they thought the easiest way out was, "Thank you, we'll take care of the Boers and you the Filipinos."

UNINTENTIONAL TRUTH.

Sometimes Republicans are truthful. They were when they said the reason many Republicans would not vote for Mr. Cressy for State Senator to succeed Senator Goebel was because he had been an ardent Democrat and still held to Democratic doctrines. An object lesson is this to Democrats who would affiliate with Republicans.

AT HOME.

Uncle Billie, Dr. W. H. Whit-sit, recently deposed President, or something to that effect, of the Southern Baptist Theological Seminary, is at home from abroad again. His many friends, well-welcome him, especially those of the pedo-Baptist faith, for Uncle Billie has been there again in that same British museum and with his own eyes saw the horse. He is seventeen feet high and there is no mistake about it. After a shake all around and a rest from the sea uncomfotableness Uncle Billie will seclude himself in order that he may bring forth another book. Why another book Uncle Billie? Didn't you say your recent and more elaborate investigation confirmed the former discoveries which were woven into a book?

Now it does look to us just like the brother at the expense of his church would write a book and arouse dissention that he may gain profit thereby. However, the brother may again, as he did for the Independent, write from a pedo-Baptist standpoint. Giving advice that we would urge the brother to be careful how he writes—to keep very close to the shore or he will have Joe Eaton, of Colorado, after him again with another sharp stick.

Seriously, let Uncle Billie write his book, then let the matter be discussed between him and his brethren. Rev. J. N. Hall might be able to give the brethren more light on Baptist history.

GOEBEL'S SUCCESSOR.

Because of the falling off of the Democratic vote in Kenton county in the election of Mr. Habeson to succeed Mr. Goebel, the Republicans would have us believe it attributable to the opposition of Democrats to the election law. No such thing. The Democratic votes were in Kenton county and the only reason for antipathy was the lack of that enthusiasm which goes with a red-hot campaign.

WATER-WORKS.

If Mt. Sterling has an opportunity to get water works from a responsible company, after throwing about the legal safeguards protecting the city's future interests, the needed permits should be granted; the time for beginning work should be thirty days and the period for completion six months. Such requirements accepted by the company would be evidence of ability to construct the plant on money not to be arranged for.

"The wicked flee when no man pursueth." There are some fellows just scared out of their wits for fear of arrest. What connection they have had with the murder of Governor Goebel, they know. It may be remote and yet have led to the assassination. Why the unrest of Senator Deboe? Did his blood-wading expressions incite the Satanic fiend to the commission of the dastard crime?

Somebody is busy starting reports that some persons, never suspected of being connected in any way with the murder of Governor Goebel, will be arrested. The object is to break the force of public sentiment against those parties now under arrest and is a scheme of the conspirators.

THE BEST.

A gentleman, a Brown Democrat at that, handed us an advertisement with the following script:

"Please, if you decide to put this in, be sure and let a Democratic paper have it, as they are the people who want only the best."

It matters not who the conspirators in the murder of Gov. Goebel are, be they of high or low station, they are felons and as such they must be dealt with.

THE COMMONWEALTH.

GOVERNORS IN LOUISVILLE.

Two of the Supporters of Taylor Start for Washington on Some Mission Not Made Public.

Louisville, Ky., March 19.—The two governors of Kentucky were entertained in this city Sunday. Messrs. Taylor and Beckham both insisted that they had come to Louisville on purely personal business, and that their visits had no political significance. They spent the day quietly, though both received numerous calls from their political and personal friends.

Taylor and his associates among the republican party leaders are very close mouthed as to the nature of the mission on which they are going to the Port C. M. Barnett and Collector of Internal Revenue Sapp left for Washington Saturday night after their conference with Taylor, but there is a little doubt it has to do with the attitude of the national administration toward the republican state officers. The latter do not conceal their purpose to hold onto their positions until the United States supreme court has passed upon the question of their right to hold them. They do not intend to surrender the state buildings and records after a decision by the state court of appeals, if that court should decide against them. There has been some talk that the democratic officers may try to exercise their functions in earnest in case they are upheld by the court of appeals, which they regard as the crisis of the last resort in their cases, and it is believed the republicans wish to know the feeling of the national leaders of their party toward their policy.

Lawyers Refuse to Talk.

Frankfort, Ky., March 19.—Ex-Gov. Brown and J. C. Sims, who will defend Caleb Powers, John Davis and William H. Cotton, suspects held on the charge of being accessory to the murder of William Goebel, have arrived here. Ex-Gov. Brown was asked if the pardons granted by Taylor to Powers and Davis on the night they fled from here and were overhauled at Lexington would be pleaded as a defense to the prosecution at the examining trial, but he declined to answer, though Mr. Powers, one of the defendants, has indicated that such a defense may be offered.

Purchase by the Trust.

Williamstown, Ky., March 19.—E. A. Shaw, agent for the Continental Tobacco Co., has purchased nearly 1,500,000 pounds of tobacco in this county. He estimates the total production of the county to be more than 5,000,000 pounds. The purchase price will average 7 cents per pound.

Kentucky Governorship Case.

Louisville, Ky., March 19.—The governorship case is still in the circuit court of this county. Judge Field is expected to dispose of it this week, when it will be taken to the court of appeals. A week or two more will be consumed by the proceedings before that court.

Will Go on Cotton's Bond.

Lexington, Ky., March 19.—Jailer Lawrence at Frankfort told the court that unless the commonwealth would furnish a guard for the State of Ohio, he would remain at his home with his sick wife, he himself would take the responsibility on his own personal bond.

Murder in the First Degree.

Lexington, Ky., March 19.—The jury in the case of Frank Dinmore, charged with the murder of his wife and John Lane, the husband of the woman, Saturday returned a verdict of guilty of murder in the first degree, and fixed the penalty at death.

Working His Way Through.

Lexington, Ky., March 19.—Frank Hinkle, landsman on the battle ship Texas is here, en route to New York. While the ship was at New Orleans he went ashore and was left. He has been two weeks resting here. He is working his way through.

Creditors Get One-Quarter.

Louisville, Ky., March 19.—In the bankruptcy case of E. B. Nugent, the dry goods merchant, a settlement of 25 cents on the dollar has been agreed upon.

Cracked the Safe.

Mayfield, Ky., March 19.—At the dry goods store of the late Mr. Wingo, burglars secured \$200 in cash by cracking the safe with dynamite.

Caught on a Treest.

Nicholasville, Ky., March 19.—Albert Mundy, a Negro, was caught by a train while attempting to cross a trestle near Valley View.

Mother and Daughter Acquitted.

Mayfield, Ky., March 19.—Miss Ada Mitchell and mother, of Wingo, were acquitted of the charge of murdering the former's infant child.

Death of Clifford F. Parker.

New York, March 19.—Word has been received here that Clifford Forbes Parker, formerly a merchant of this city, died recently at The Hague, Holland, of locomotor ataxia, after an illness of six years. He was 70 years old, and was born in Cincinnati. He was a son of Judge James Parker, of Cincinnati.

Chicago Club Going South.

West Baden, Ind., March 19.—The Chicago Baseball club will leave West Baden Wednesday for Selma, Ala. The original intention of stopping at Memphis has been abandoned. Manager Loftus expects to play games there April 7 and 8 on his return from Alabama, and then go to Louisville.

NINE PERSONS INJURED.

A Coal Chute Drops on an Elevated Train on the Ninth Avenue Line in New York City.

New York, March 19.—Nine persons were injured early Sunday morning in an accident to a Ninth avenue elevated train near Rector street. Five of the nine are severely injured, and one of these, David A. Findley, is at the Hudson Street hospital, suffering from a fracture of the skull. The most seriously injured besides Findley are Richard B. Barlow, of Yonkers, engineer of the train, scalp wounds and shock; Thomas Shelby, an engineer, internally injured; Alfred Alexander, salesman, internally injured; James Manning, laborer, injured about the head.

As the train was approaching a coal chute dropped down almost at the moment the train reached the station. The chute struck the roof of the cab and sagged it off, at the same time throwing Engineer Barlow and Fireman Huthings to the floor of the cab. Barlow's hand was caught in the chute, and he was killed. The engine dashed ahead at full speed up the tracks, stopping only when it had reached Barclay street because of the exhaustion of the steam. Meanwhile the chute was sliding down the roofs of the two passenger cars, and the dozen passengers in the cars were thrown in every direction.

Killed in a Boxing Bout.

Santa Cruz, Cal., March 18.—Frank Case, 35 years old, was killed at Levin Lakes in a friendly bout with Bert Whidden. In the eighth round Whidden struck Case with a six-ounce glove on the left side of the neck. Death resulted in half an hour. Case weighed 170 pounds, being 20 pounds heavier than Whidden.

Colony of Missouri Farmers.

Chihuahua, Mexico, March 19.—A colony of 400 Missouri farmers is to be established in the valley of the Concho river, in this state. The promoters of the colonization scheme have purchased 20,000 acres of rich valleys, and a few of the colonists have already arrived.

Neal Dow's Birthday Observed.

Washington, March 19.—The 65th meeting of the Congressional Temperance society, also a memorial in honor of the 90th birthday anniversary of Hon. Neal Dow, took place in the Memorial Lutheran church. Representative Groat, of Vermont, presided.

**HIS DYING WORDS**  
 "Tell my friends to be brave and fearless and remain loyal to the great common people."  
 —Gov. Wm. Goebel.

J. C. W. BECKHAM

NO, I THANK YOU.

President McKinley wrote a letter to our English kinsfolk and told them he would be pleased to help them let go of the Boers. To which our kinsfolk responded: "No, I thank you, we can manage this little job." Doubtless they had been watching the spirit of Mack in the Cuban-Spanish fray when he told the boys, "By your consent we'll come over and attend to the Spaniards." Our English people may have observed that when the Spaniards had been attended to that Mack proceeded to jump on the little folks and take what they had and since the English are somewhat akin to hogs they had no idea of accepting the United States peace proffer and then have to divide what they took from the Boers. The English are alive on these lines and McKinley's amateur methods make no scoop with them.

Had this unpleasantness occurred during the Democratic administration, Cleveland would have come in from a memorable duck hunt, set his gun down in the corner, picked up a scrap of paper and written thusly: "My dear John Bull, if you don't let those little boys alone I'll twist your tail off," and that would have been the end of it.

England may have looked further and realizing our mix-up over in Manila might have reasoned this way: Should we accept this peace intervention, then as a matter of courtesy we would have to take part in that mix-up in which the Filipino roosters are giving the United States a powerful sight of worry, so they thought the easiest way out was, "Thank you, we'll take care of the Boers and you the Filipinos."

**UNINTENTIONAL TRUTH.**

Sometimes Republicans are truthful. They were when they said the reason many Republicans would not vote for Mr. Creasy for State Senator to succeed Senator Goebel was because he had been an ardent Democrat and still held to Democratic doctrines. An object lesson is this to Democrats who would affiliate with Republicans.

**AT HOME.**

Uncle Billie, Dr. W. H. Whitsett, recent deposed President, or something to that effect, of the Southern Baptist Theological Seminary, is at home from abroad again. His many friends, will welcome him, especially those of the pedit-Baptist faith, for Uncle Billie has been there again in that same British museum and with his own eyes saw the horse. He is seventeen feet high and there is no mistake about it. After a shake all around and a rest from the sea discomfortableness Uncle Billie will seclude himself in order that he may bring forth another book. Why another book Uncle Billie? Didn't you say your recent and more elaborate investigation confirmed the former discovery which were woven into a book?

Now it does look to us just like the brother at the expense of his church would write a book and arouse dissent that he may gain profit thereby. However, the brother may again, as he did for the Independent, write from a pedit-Baptist standpoint. Giving advice free, we would urge the brother to be careful how he writes—to keep very close to the shore or he will have Joe Eaton, of Colorado, after him again with another sharp stick.

Seriously, let Uncle Billie write his book, then let the matter be discussed between him and his brethren. Rev. J. N. Hall might be able to give the brethren more light on Baptist history.

**GOEBEL'S SUCCESSOR.**

Because of the falling off of the Democratic vote in Kenton county in the election of Mr. Habson to succeed Mr. Goebel, the Republicans would have us believe it attributable to the opposition of Democrats to the election law. No such thing. The Democratic votes were in Kenton county and the only reason for antipathy was the lack of that enthusiasm which goes with a red hot campaign.

**WATER-WORKS.**

If Mt. Sterling has an opportunity to get water works from a responsible company, after throwing about the legal safeguards protecting the city's future interests, the needed permits should be granted, the time for beginning work should be thirty days and the period for completion six months. Such requirements accepted by the company would be evidence of ability to construct the plant on money not to be arranged for.

"The wicked flee when no man pursueth." There are some fellows just scared out of their wits for fear of arrest. What connection they have had with the murder of Governor Goebel, they know. It may be remote and yet have led to the assassination. Why the unrest of Senator Deboel? Did his blood-wading expressions incite the Satanic fiend to the commission of the dastard crime?

Somebody is busy starting reports that some persons, never suspected of being connected in any way with the murder of Governor Goebel, will be arrested. The object is to break the force of public sentiment against those parties now under arrest and is a scheme of the conspirators.

**THE BEST.**

A gentleman, a Brown Democrat at that, handed us an advertisement with the following postscript:

"Please, if you decide to put this in, be sure and let a Democratic paper have it, as they are the people who want only the best."

It matters not who the conspirators in the murder of Gov. Goebel are, be they of high or low station, they are felons and as such they must be dealt with.

**THE COMMONWEALTH.**

**GOVERNORS IN LOUISVILLE.**

Two of the Supporters of Taylor Start for Washington on Same Mission Not Made Public.

Louisville, Ky., March 19.—The two governors of Kentucky were entertained in this city Sunday. Messrs. Taylor and Beckham both insisted that they had come to Louisville on purely personal business, and that their visits had no political significance. They spent the day quietly, though both received numerous calls from their political and personal friends.

Taylor and his associates among the republican party leaders are very close mouthed as to the nature of the mission on which Governor of the United States, Mr. Taylor, and Collector of Internal Revenue Sapp left for Washington Saturday night after their conference with Taylor, but there is little doubt it has to do with the attitude of the national administration toward the republican state officers. The latter do not conceal their purpose to hold onto their positions until the United States supreme court has passed upon the question of their right to hold them. They do not intend to surrender the state buildings and records after a decision by the state court of appeals, if that court should decide against them. There has been some talk that the democratic officers may try to exercise their functions in earnest in case they are upheld by the court of appeals, which they regard as the court of last resort in their cases, and it is believed the republicans wish to know the feeling of the national leaders of their party toward their policy.

**Lawyers Refuse to Talk.**

Frankfort, Ky., March 19.—Ex-Gov. Brown and J. C. Sims, who will defend Caleb Powers, John Davis and William H. Culton, suspects held on the charge of being accessory to the murder of William Goebel, have arrived here. Ex-Gov. Brown was asked if the pardons granted by Taylor to Powers and Davis on the night they fled from here and were overhauled at Lexington would be pleaded as a defense to the prosecution at the examining trials, but he refused to answer, though Mr. Powers, one of the defendants, has indicated that such a defense may be offered.

**Purchases By the Trust.**

Williamstown, Ky., March 19.—R. A. Shaw, agent for the Continental Tobacco Co., has purchased nearly 1,000,000 pounds of tobacco in this county. He estimates the total production of Grant county to be more than 5,000,000 pounds. The purchase price will average 7 cents per pound.

**Kentucky Governorship Case.**

Louisville, Ky., March 19.—The governorship case is still in the air. Judge Field is expected to dispose of it this week, when it will be taken to the court of appeals. A week or two more will be consumed by the proceedings before that court.

**Will Go On Culton's Bond.**

Lexington, Ky., March 19.—Jailer Lawrence at Frankfort told the court that unless the commonwealth would furnish a guard for Culton and allow him to remain at his home with his sick wife, he himself would take the responsibility on his own personal bond.

**Murder in the First Degree.**

Lexington, Ky., March 19.—The jury in the case of Frank McKinley charged with the murder of his wife and John Lane, the husband of his paramour, Saturday returned a verdict of guilty of murder in the first degree, and fixed the penalty at death.

**Working His Way Through.**

**Mother and Daughter Acquitted.**

Mayfield, Ky., March 19.—Miss Ada Mitchell and mother, of Wingo, were acquitted of the charge of murdering the former's infant child.

**Death of Gifford F. Parker.**

New York, March 19.—Word has been received here that Gifford Forbes Parker, formerly a merchant of this city, died recently at The Hague, Holland, of locomotor ataxia, after an illness of six years. He was 59 years old, and was born in Cincinnati. He was a son of Judge James Parker, of Cincinnati.

**Chicago Club Going South.**

West Baden, Ind., March 19.—The Chicago Baseball club will leave West Baden Wednesday for St. Louis. The original intention of stopping at Memphis has been abandoned, but Manager Lofy says the club will play games there April 7 and 8 on its return from Alabama, and then go to Louisville.

**NINE PERSONS INJURED.**

A Coal Chute Drops on an Elevated Train on the Ninth Avenue Line in New York City.

New York, March 19.—Nine persons were injured early Sunday morning in an accident to a Ninth avenue elevated train near Rector street. Five of the nine are severely injured, and one of these, David A. Findley, is at the Hudson Street hospital, suffering from a fracture of the skull. The most seriously injured besides Findley are Richard B. Barlow, of Yonkers, engineer of the train, scalp wounds and shock; Thomas Shelvee, an engineer, internally injured; Alfred Alexander, salesman, internally injured; James Manning, laborer, injured about the head.

As the train was approaching a coaling station the coal chute dropped down almost at the moment the train reached the station. The chute struck the roof of the cab and tore it off, at the same time throwing Engineer Barlow and Fireman Hutchings to the floor of the cab. Barlow's hand was on the throttle at the moment of collision, and he felt his hand turned on the pressure still more, and the engine dashed ahead at full speed up the tracks, stopping only when it had reached Barclay street because of the exhaustion of the steam. Meanwhile the chute had wrecked the roof of the train, and the passengers in the cars were thrown in every direction.

**Killed in a Boxing Bout.**

Santa Cruz, Cal., March 19.—Frank Case, 35 year old, was killed at Levin Lakes in a friendly bout with Bert Whidden. In the eighth round Whidden struck Case with a six-ounce glove on the left side of the neck. Death resulted in half an hour. Case weighed 170 pounds, being 30 pounds heavier than Whidden.

**Colony of Missouri Farmers.**

Chihuahua, Mexico, March 19.—A colony of 400 Missouri farmers is to be established in the valley of the Concho river, in this state. The promoters of the colonization scheme have purchased 20,000 acres of rich valley, and a few of the colonists have already arrived.

**Neal Dow's Birthday Observed.**

Washington, March 19.—The 65th meeting of the Congressional Temperance society, also a memorial in honor of the 95th birthday anniversary of Hon. Neal Dow, took place in the Memorial Lutheran church. Representative Grosout, of Vermont, presided.

**Master Commissioner's Sales.**

## FITZPATRICK

**Describes the Death of Gen. Lawton at San Mateo.**

**Soldier on the March Without Shoes to Wear.**

**Fared Well During the Christmas Holidays.**

Manila P. O.  
Dec. 22, 1899.

DEAR MOTHER—Your letter of Oct. 1st just reached me and I will now answer. All home news is read here with much interest.

The rainy season is over now and the rebellion is almost suppressed. But in stopping the insurrection we have lost one of our best and bravest leaders, Gen. Lawton. He was killed at San Mateo, by the insurgents, while trying to help one of his staff officers, who was shot in the arm. The bullet passed through his heart and he expired in a few minutes. Every officer and soldier regrets his loss, for Gen. Lawton was liked by all, and did more to stop the war than any other officer over here.

Our regiment has been fighting, but is now in some towns holding them and keeping the river Grande open to travel. When they were fighting they, often, were without rations. Some of the men marched several days without shoes to wear; thus their feet became covered with sores and swelled up so they had to be sent to the hospital in Manila. Out of five hundred men, only two hundred are really able for duty. My company has not been heard from for over two weeks and I don't know their condition. Well, I am still in the hospital and am improving a little. Am glad to hear you are all well and hope this will still find you healthy. I will close now, having no more news at present.

Your Son,  
ARTHUR FITZPATRICK,  
Co. C, 22nd, Infy.

San Fernando, P. O.  
Jan. 20, 1900.

DEAR MOTHER—Was very glad to get your letter dated Oct. 15th, and read it with pleasure. It reached me after much delay, as I had reported for duty to the Company. I am feeling fine now and doing duty, having been out of the hospital over a week.

We had an excellent time Christmas and Thanksgiving. Our dinner consisted of turkey, chicken, peas, corn, potatoes and gravy, and pie, cake, mixed nuts, bananas and oranges for dessert. Each one also got a bottle of beer and patients on liquid diet had a bottle of wine. So you see we celebrated in true U. S. style, those old and joyous holidays.

The rebellion is about broken up as our boys just finished a campaign of two months. They were in the mountains and had very poor rations. Now many of them are sick and four died of sickness. I missed that march, however, being too sick to go. We are now here in good quarters, and will probably stay here until we are ordered home.

We got a nice Christmas present from the Red Cross Society, consisting of a comb, cake of soap, tooth brush, towel, and two stomach bandages. These were very much appreciated, as everything is useful to a soldier.

Tell May to give all the girls my best regards and thanks for thinking of me. When I get back I will have lots to tell them.

There is talk here of our returning before very long, but nothing definite. Tell all who wish to write, I will be glad to hear from them. Well, goodbye for a short time, answer soon.

Your loving son,  
ARTHUR FITZPATRICK.

### Bourbon County Items.

Mr. June Stone purchased 100 ewes with lambs at \$6 per head.

John C. Gatewood, convicted of suffering nuisance, was fined \$100.

John I. Fisher, an agent for his children, sold to Warren Rogers 95 acres on Cane Ridge, part of the Harvey Rogers land, at \$70 per acre.

The Peacock Distilling Co., was fined \$550, Tuesday, for failing to report withdrawals of whiskey in 1898, and the G. G. White Co., was fined \$500 on a similar charge.

But few Commonwealth cases have been tried in the Circuit Court this week. Attorney T. E. Ashbrook is ill. Commonwealth's Attorney Franklin's place very ably this week, Mr. Franklin being engaged at Frankfort on the Gosholt assassination case.

The sale near North Middletown by attorney C. M. Thomas, as assignee of W. S. & Lunceford Talbot, was largely attended. Auctioneer A. T. Forth reports that the home place of 101 acres sold to J. H. D. Stone at \$61 per acre. W. F. Bryan bought eighty-nine acres at \$48 per acre, and Chas. H. Meng bought eighty acres, at \$50.10 per acre. Horses brought from \$20 to \$176, two year-olds from \$30 up, an average of \$37; yearlings, weight about 800 lbs., \$39.50 each; heifers, \$25 each; milch cows, \$30 to \$57; corn, \$1.05 per shock; oats 25 cents per dozen; farm implements brought fair prices.

Hemp is now quoted at \$4.50, a fall of 50 cents last week, and a total decline of one dollar within the last sixty days. The slump of the week was due to great quantities of Manila hemp put aboard ships at Manila, a total of 60,000 bales. Hemp brokers declare that this breaks all previous records. Lower prices of harvested twines will follow the decline in prices of Manila. A prominent New York broker predicts 6 cents Manila, which means 9 cents twine. Last year twine was as high as 14 cents.—Lexington Herald.

## Danger Signals!

Do you take cold with every change of weather? Does your throat feel raw? And do sharp pains dart through your chest?

Don't you know these are danger signals which point to pneumonia, bronchitis, or consumption itself?

If you are ailing and have lost flesh lately, they are certainly danger signals. The question for you to decide is, "Have I the vitality to throw off these diseases?"

Don't wait to try SCOTT'S EMULSION "as a last resort." There is no remedy equal to it for fortifying the system. Prevention is easy.

## Scott's Emulsion

prevents consumption and hosts of other diseases which attack the weak and those with poor blood.

SCOTT'S EMULSION is the one standard remedy for inflamed throats and lungs, for colds, bronchitis and consumption. It is a food medicine of remarkable power. A food, because it nourishes the body; and a medicine, because it corrects diseased conditions.

Chas. Duff on Wednesday, sold to James Greer, of Frenchburg, the Youm farm of 100 acres for \$4,000, possession given Nov. 1.

Geo. Roberts, of Sideview, has bought of Walker Combs, about 13 acres of improved farm land for \$1,000.

Mr. Solomon Vanmeter, of this county on Wednesday sold to Paris parties, 6,000 bushels of blue grass seed 47½ cents.—Lexington Herald.

The Register reports about 1,000 cattle on the market at Richmond Monday. Only about 750 were sold at from 3 to 5 cents. Mules brought \$60 to \$125. One fine gelding sold at \$250.

Flying Fox, four years old, and the foremost race horse in England, was sold at public auction last week and brought \$196,900. His grand sire, Ormonde was bought for \$150,000 and was brought to this country.

Dan Peed, of Paris, who purchased the barley samples at the recent Maysville Tobacco Fair, has shipped the tobacco to the Paris Exposition to compete for the \$2,000 prize for Kentucky. Mr. Peed says this tobacco is the finest barley ever raised in Kentucky, and he is confident of winning the prize on his exhibit.—Carlisle Mercury.

### CLARK COUNTY ITEMS.

Born, Tuesday, March 13th, to Rezin M. Scobee and wife, of Winchester, a daughter.

Sunday 11th, was Eld. J. M. Rash's regular appointment at Stanton. At the service he had eleven additions to the church.

S. T. Stephenson, of Winchester, has rented and moved to the Milt McClure property on Green-Briar, in Montgomery county.

More tobacco beds have been burned during the past week than ever before known during the same length of time. The present prospect is for a tremendous crop.

Mrs. Harriet Cooper, wife of Ben F. Cooper, died suddenly Wednesday morning at her home on the Ironworks pike of heart disease, aged fifty-seven years. She was a noble Christian woman with many friends, and a devoted member of the Christian Church.

Now that the City Council of Winchester, has repealed all ordinances along that line, the State law will govern things and all infractions will be tried in Judge Evans' court. The State law allows all work of charity or necessity, and allows lively stable drug stores and restaurants to remain open on Sunday. A determined effort will be made, we understand, to have all stores, etc., closed on Sunday. Many storekeepers would gladly close on Sunday if their competitors would also close.

The Clark County Children's Home will be ready for public inspection Saturday, March 17th, from 2 to 5 o'clock p. m., at which time it will be dedicated to Him who orders all good for the use of His destitute and orphaned little ones in this county. Rev. B. B. Bailey assisted by other ministers, will conduct the services. The services will be held at 2 o'clock and everybody is invited to attend.

### "THE KING FILTER!"

Patented January 2, 1890.

By far the most fruitful avenue for the elements of disease to enter the human economy is through nose, mouth, throat, and chest. Thousands of our fellow-beings find no safety every year simply because of the gross negligence and irreparable ignorance, failing to attend to this all-important matter. The ordinary filter put up all over the land is full of dirt, and is not only a source of danger, but of death, far worse than no filter at all, containing fine stagnant decomposing water, full of typhoid and cholera germs, and the seeds of typhoid and cholera are on the roofs of your houses to be carried into your system to be used for drinking purposes.

### A Look

into one of these modern death-traps after it has stood unemptied for weeks, and often months, would surely excite the strongest and convince the most incredulous that they were far better off if they had no filter. The most casual comparison of the

### "KING"

with any other filter, would convince any reasonable person at once of its vast superiority, and show them that they could not afford to purchase any other simply because it was cheap for expending the BEST of the elements which corrupt, waste and life are at stake. And though the price may seem a few cents a little high, when you remember that being an ANTI-FEELER, you avoid the heating of your system, and the necessary repairs, you will not fail to see at once that, besides being the only health-preserving filter made, it is also THE CHEAPEST FILTER MADE. Don't be deceived by the beautiful exterior of the filter when he says, "mine is much cheaper and about as good," but men and women of thought look into the filter and its merits, remembering the value of the health and lives of your loved ones. And also, "you can't afford to take the risk for the petty sum of a few dollars."

Do not fail to inquire before you examine the "KING" filter, manufactured by the

## FITZPATRICK

**Describes the Death of Gen. Lawton at San Mateo.**

**Soldier on the March Without Shoes to Wear.**

**Fared Well During the Christmas Holidays.**

Manila P. O.  
Dec. 22, 1899.

DEAR MOTHER—Your letter of Oct. 1st just reached me and I will now answer. All home news is read here with much interest.

The rainy season is over now and the rebellion is almost suppressed. But in stopping the insurrection we have lost one of our best and bravest leaders, Gen. Lawton. He was killed at San Mateo, by the insurgents, while trying to help one of his staff officers, who was shot in the arm. The bullet passed through his heart and he expired in a few minutes. Every officer and soldier regrets his loss, for Gen. Lawton was liked by all, and did more to stop the war than any other officer over here.

Our regiment has been fighting, but is now in some towns holding them and keeping the river Grande open to travel. When they were fighting they, often, were without rations. Some of the men marched several days without shoes to wear; thus their feet became covered with sores and swelled up so they had to be sent to the hospital in Manila. Out of five hundred men, only two hundred are really able for duty. My company has not been heard from for over two weeks and I don't know their condition. Well, I am still in the hospital and am improving a little. Am glad to hear you are all well and hope this will still find you healthy. I will close now, having no more news at present.

Your Son,  
ARTHUR FITZPATRICK,  
Co. C, 22nd, Infy.

San Fernando, P. O.,  
Jan. 20, 1900.

DEAR MOTHER—Was very glad to get your letter dated Oct. 18th, and read it with pleasure. It reached me after much delay, as I had reported for duty to the Company. I am feeling fine now and doing well, having been out of the hospital over a week.

We had an excellent time Christmas and Thanksgiving. Our dinner consisted of turkey, chicken, peas, corn, potatoes and gravy, and pie, cake, mixed nuts, bananas and oranges for dessert. Each one also got a bottle of beer and patients on liquid diet had a bottle of wine. So you see we celebrated in true U. S. style, those old and joyous holidays.

The rebellion is about broken up as our boys just finished a campaign of two months. They were in the mountains and had very poor rations. Now many of them are sick and four died of sickness. I missed that march, however, being too sick to go. We are now here in good quarters, and will probably stay here until we are ordered home.

We got a nice Christmas present from the Red Cross Society, consisting of a comb, cake of soap, tooth brush, towel, and two stomach bandages. These were very much appreciated, as everything is useful to a soldier.

Tell May to give all the girls my best regards and thanks for thinking of me. When I get back I will have lots to tell them.

There is talk here of our returning before very long, but nothing definite. Tell all who wish to write, I will be glad to hear from them. Well, goodbye for a short time, answer soon.

Your loving son,  
ARTHUR FITZPATRICK.

### Bourbon County Items.

Mr. June Stone purchased 100 ewes with lambs at \$1.80 per head.  
John C. Gatewood, convicted of suffering nuisance, was fined \$100.  
John I. Fisher, as agent for his children, sold to Warren Rogers 95 acres on Cane Ridge, part of the Harvey Rogers land, at \$70 per acre.  
The Peacock Distilling Co., was fined \$550, Tuesday, for failing to report withdrawals of whiskey in 1898, and the G. G. White Co., was fined \$500 on a similar charge.  
But few Commonwealth cases have been tried in the Circuit Court this week. Attorney T. E. Ashbrook is filio. Commonwealth's Attorney Franklin's place very ably this week, Mr. Franklin being engaged at Frankfort on the Garbel assassination case.

The sale near North Middletown by attorney C. M. Thomas, as assignee of W. S. & Lancaster Talbot, was largely attended. Auctioneer A. T. Forth reports that the home place of 101 acres sold to Junius D. Stone at \$61 per acre. W. F. Bryan bought eighty-nine acres at \$48 per acre, and Chas. H. Meng bought eighty acres, at \$50.10 per acre. Horses brought from \$26 to \$170, two year-olds from \$20 up, an average 2nd \$87; yearlings sold at \$18 to \$26; 23 yearlings, weight about 800 lbs., \$39.50 each, heifers, \$25 each; milch cows, \$30 to \$37; corn, \$1.05 per shock; oats 25 cents per dozen; farm implements brought fair prices.

## Danger Signals!

Do you take cold with every change in the weather? Does your throat feel raw? And do sharp pains dart through your chest?  
Don't you know these are danger signals which point to pneumonia, bronchitis, or consumption if you are illing and have lost flesh lately. They are certainly danger signals. The question for you to decide is, "Have I the vitality to throw off these diseases?"  
Don't wait to try SCOTT'S EMULSION "as a last resort." There is no remedy equal to it for fortifying the system. Prevention is easy.

## Scott's Emulsion

prevents consumption and hosts of other diseases which attack the weak and those with poor blood.  
SCOTT'S EMULSION is the one standard remedy for inflamed throats and lungs, for colds, bronchitis and consumption. It is a food medicine of remarkable power. A food, because it nourishes the body; and a medicine, because it corrects diseased conditions.

### LAND, STOCK AND CROP.

G. W. Bramblett sold at Cincinnati last week 42 hds. of tobacco at an average of \$11.80 per cwt.  
Chas. Duff on Wednesday, sold to James Greer, of Frankfort, the Yocum farm of 100 acres for \$4,000, possession given Nov. 1.  
Geo. Roberts, of Sideview, has bought of Walker Combs, about 13 acres of improved farm land for \$1,000.  
Mr. Solomon Vanmeter, of this county on Wednesday sold to Paris parties, 6,000 bushels of blue grass seed 47 1/2 cents.—Lexington Herald.  
The Register reports about 1,000 cattle on the market at Richmond Monday. Only about 750 were sold at from 3 to 5 cents. Mules brought \$60 to \$125. One fine gelding sold at \$250.  
Flying Fox, four years old, and the foremost race horse in England, was sold at public auction last week and brought \$106,500. His grand sire, Ormonde was bought for \$150,000 and was brought to this country.

Dan Peed, of Paris, who purchased the Burley samples at the recent Mayaville Tobacco Fair, has shipped the tobacco to the Paris Exposition to compete for the \$2,000 prize for Kentucky. Mr. Peed says this tobacco is the finest Burley ever raised in Kentucky, and he is confident of winning the prize on his exhibit.—Carlin's Mercury.

Hemp is now quoted at \$4.50, a fall of 50 cents last week, and a total decline of one dollar within the last sixty days. The slump of the week was due to great quantities of Manila hemp put aboard ships at Manila, a total of 60,000 bales. Hemp brokers declare that this breaks all previous records. Lower prices of harvest twines will follow the decline in prices of Manila. A prominent New York broker predicts 6 cents Manila, which means 9 cents twine. Last year twine was as high as 14 cents.—Lexington Herald.

### CLARK COUNTY ITEMS.

Born, Tuesday, March 13th, to Rezin M. Scobee and wife, of Winchester, a daughter.

Sunday 11th, was Eld. J. M. Kash's regular appointment at Stanton. At the service he had eleven additions to the church.

S. T. Stephenson, of Winchester, has rented and moved to the Mill McClure property on Green-Briar, in Montgomery county.

More tobacco beds have been burned during the past week than ever before known during the same length of time. The present prospect is for a tremendous crop.

Mrs. Harriet Cooper, wife of Ben F. Cooper, died suddenly Wednesday morning at her home on the Iron-works pike of heart disease, aged fifty-seven years. She was a noble Christian woman with many friends, and a devoted member of the Christian Church.

Now that the City Council of Winchester, has repealed all ordinances along that line, the State law will govern things and all infractions will be tried in Judge Evans' court. The State law allows all work of charity to be done, and allows literary, stable, drug stores and restaurants to remain open on Sunday. A determined effort will be made, we understand, to have all stores, etc., closed on Sunday. Many storekeepers would gladly close on Sunday if their competitors would also close.

The Clark County Children's Home will be ready for public inspection Saturday, March 17th, from 2 to 5 o'clock p. m., at which time it will be dedicated to Him who orders all good for the use of His creature and ordained little ones in this country. Rev. B. B. Bailey assisted by other ministers, will conduct the services. The services will be held at 3 o'clock and everybody is invited to attend.

## Hints to Flour Makers.

(By L. R. Vestch).

Those of you who have read the article published in a recent number of the ADVOCATE as to the manner of testing flour for strength, have doubt given the matter one thought, any way, so we will now endeavor to continue the same article with a few thoughts as to the way flour should be kept.

As we have intimated in the foregoing article, the quality of flour is not the whole dependence of successful bread making. There are numerous conditions under which the very best of flour will fail to produce a bread, it is for this reason that every one should be interested in knowing, if possible, where the fault in bad bread lies. Guess work is no good, when time and money are at stake, theory is not worth the time it takes to tell it, unless there is some practical experience closely connected. In my lifetime experience in milling and from what I have been able to gather from those far more able to master a subject like this than the writer, I find that the way in which flour is kept has much to do with the cooking quality of it; for instance, I know of a farmer, who after purchasing a sound bag of flour placed it in a sack that had not been used for several months, and where to my knowledge, the temperature run to over 100. The same room also contained meat, oil, and many other things of an absorbent quality; in the course of a few days he made a complaint that the flour was musty, and that there were worms in it; he further stated

that the first of the flour was all right, but that on getting near the bottom he discovered worms and must. It was very hard to convince this party that the worms were in the barrel and the must, as he thought, was the impurities absorbed.

Flour should be kept in a room where the temperature is not above 70 degrees Fahrenheit, it should not be exposed to an extreme low temperature, the room should be well aired often; should be well ventilated, but no draft should be allowed to pass through the room. Always before putting flour in a bin or barrel expose same to the sun. Flour will not keep as well where it is put in barrels at the mill as it will where it is placed in loose and in seasoned or dry barrels. It is almost impossible for millers to obtain a barrel that is thoroughly seasoned, therefore my advice regarding the proper way to handle flour is in paper or cotton bags, and if you buy in large quantities never empty a bag only as you use it, as it will be exempt from air. Age will whiten flour, and where care is observed in handling as per above, it will not lose its flavor. Strong flour has a granular feel and a yellow cast. We trust that the few hints we have given on the essentials of the proper care of flour will prove of some benefit to the readers of the ADVOCATE.

## A Little Sermo: Out of Churcon.

Let it rest! Some proceeding has wounded us by its want of tact; let it rest! no one will think of it again. A harsh or unjust sentence irritates us; let it rest! whoever may have given it will be pleased to see it is forgotten.

A painful scandal is about to estrange us from an old friend; let it rest, and thus preserve our charity and peace of mind.

Suspicious look is on the point of cooling our affection; let it rest, and our look of trust will restore confidence.

Panic! we who are so careful to remove the briars from our pathway for fear they should wound, yet take pleasure in collecting and piercing our hearts with the thorns that meet us in our daily intercourse with one another. How childish and unreasonable we are!

## THE NEW YORK WORLD, THRICE-A-WEEK EDITION.

Almost A Daily—At the Price of a Weekly.

The most widely circulated "weekly" newspaper in America is the Thrice-A-Week edition of the New York World, and with the Presidential campaign now at hand you can not do without it. Here are some of the reasons why it is the leader in dollar a year journalism.

It is issued every other day, and is to all purposes a daily.

Every week each subscriber receives 18 pages and often during the "busy" season 24 pages each week.

The price is only \$1.00 per year. It is virtually a daily at the price of a weekly.

Its news covers every known part of the world. No weekly newspaper could stand alone and furnish such service.

The Thrice-A-Week World has at its disposal all of the resources of the greatest newspaper in existence—the wonder of modern journalism—"America's Greatest Newspaper," as it has been justly termed—The New York World.

Its political news is absolutely impartial. This fact will be of especial value in the Presidential campaign coming on.

The best of current fiction is found in its columns.

These are only some of the reasons; there are others. Read it and see them all.

We offer this unequalled newspaper and THE ADVOCATE together one year for \$1.65.

The regular subscription price of the two papers is \$2.00.

## It's up to the People.

Less than a year remains in which to gather facts, and information that will influence your vote for the next President of the United States.

That grievous wrongs have been committed, and grave errors allowed to exist without effort at correction, is evidenced by the speech, writings, and comments of eminent statesmen and jurists; congressmen and leading men of business; professors and clergymen in every state.

Party affiliations have been ignored in the course of this thrilling aside the safeguards of our fathers and rushing pell-mell into the affairs of Europe. The situation is a deplorable one if not alarming; as is also our domestic affairs dominated by gigantic trusts.

No fair-minded American, be he Republican, Democrat or of other political faith, can afford at this critical time to ignore the truth. Partisan prejudice, with the trusts as dictators, is a far more degrading slavery than that which existed previous to the Civil War of '61-64.

Trusts in the United States alone have a representative capital greater than all the gold and silver in the world. These will spend many more millions of dollars to suppress truth and facts and mislead all who fail to look beyond their plausible deceptions. Read the Enquirer and you will be able to discern the truth and combat falsehood. A victory for trusts and the McKinley Administration in 1900 will end the era of greatest good to greatest number.

Watch carefully the Cincinnati Enquirer.

**REBELS ACTIVE.**

Filipinos Reorganizing in Several Provinces on the Island of Luzon, Philippine Group.

**MANILA THE TROUBLESOME CENTER.**

The Insurgents Hope to Force Congress to Accord Them the Best Possible Terms of Peace.

Rebels Furnished Arms and Ammunition by Spanish Residents—Treasures of Municipal President—Guerrilla Warfare.

Manila, March 19.—Gen. Otis considers Manila the most troublesome center in the situation. The insurgent junta here, in conjunction with that in Hong Kong, is growing active. The military authorities have been forced to put a stop to Manila's intercourse with the public. The local and foreign press consider his recent utterances calculated to incite the Filipinos to a continued revolt and prejudicial to American control. Flores, who has just arrived here, says he comes trusting to American leniency, and that he would not have dared come to Manila if Spain were yet in control. He cherishes the hopes and aspirations which actuated him when in the field, and desires to watch congressional action in the question of the Philippines. The insurgents, he says, do not expect to vanquish the Americans, but are maintaining a resistance with the idea of forcing congress to accord them the best possible terms.

A number of representative insurgent leaders from different parts of Luzon have recently been in conference in Manila. Some have been placed under arrest, but the others thus far have not been interfered with.

Louis Spitzel, head of the firm of Louis Spitzel & Co., contractors to the Chinese government, and himself a suspected filibuster, came from Hong Kong to Manila last week and was temporarily detained in custody on suspicion. It is asserted on good authority that Mr. and Mrs. Martin Drake are going to move to our town.

Reports are current here of active rebel organization in the province of Moravia, where the insurgent leaders are said to be assisted by prominent Spanish residents. Inhabitants of this district who are in Manila have been advised not to return to their homes, but to remain under the protection of the military.

It is also reported that the rebels are reorganizing in the province of Zamboanga under the leadership of a committing atrocities in the province of Nueva Ecija, where they have committed no less than 100 murders.

Eight other murders have been committed near Tarlac. The Nueva Ecija insurgents are heavily taxing local traders and farmers, with the result that business is paralyzed and there is a general scarcity of food.

The funds for maintaining this guerrilla warfare are collected from the various towns of the island, whether occupied by the Americans or not even including Manila.

In the province of Albay the insurgents have caused harassing the Americans ever since they were driven to the southern part of Luzon and the islands of Samar and Leyte, the result of which is to stimulate trade there, although only temporarily, as the country is non-productive and apparently non-consuming. Owing to the political conditions of the last 12 months, products accumulated during the blockade. These will be shipped to Manila, and then the ports will be empty.

Evidence accumulates of the treason and perfidy of the municipal presidents in the provinces of Gen. McArthur's district. The presidents of several towns in Lepanto and Union provinces have decided to continue in their positions, saying that they do not desire any further identification with the Americans.

Travel between the towns garrisoned by the Americans is becoming more dangerous. All wagon trains must be escorted by heavy squads in order to insure their safety. Two ambulances were narrowly averted recently, and travelers have been attacked; single travelers frequently disappear or are found dead.

Spaniards and Filipinos who are conversant with the Tagalog character insist in asserting that Aguinaldo's capture would terminate the revolution. Three months have passed since he was actively pursued.

Mr. E. E. Jones, who has been in a Lexington hospital for several days, we are glad to say is very much improved and will be able to return home this week.

**RELIGIOUS.**

Thirty-two churches in Louisville are preparing to hold special meetings.

The subject for the prayer meeting at the Baptist Church is "the Holy Spirit, the guide."

Patriotic service in the Sunday School on Home Missions was observed at the First Presbyterian Church Sunday. Collection \$10.53

Beginning with the second Sunday in April Pastor W. J. Bolin of the Baptist Church assisted by Rev. W. D. Nowlin will begin a series of meetings with the Baptist Church. Mr. Nowlin is a fine preacher. Prepare to attend the meetings.

The R. Rev. Bishop Batton, of Lexington, and Rev. J. S. Meredith of this city, held mission services last Thursday evening at the court house in Carlisle. Bishop Batton and Rev. Meredith also held services Wednesday night in the Baptist Church at Millersburg. A dozen or more of Rev. Meredith's congregation attended the services at Millersburg—Bourbon News.

The First Presbyterian Church gives every evidence of a new life, the congregations are steadily growing, the Sunday School is active, and the prayer-meetings are spiritual and helpful. The new pastor, Rev. Geo. A. Joplin, preaches strong, practical, spiritual sermons. Miss Aldrich, of Lexington, has been secured to assist in the music of the Church, both in

**DEATHS.**

KELLY.

Mrs. Mary J. Kelly, aged seventy-three years, died in Paris Wednesday morning at the residence of her daughter, Mrs. Florence Lockhart. The deceased was a most estimable christian woman and was a faithful member of the Methodist Church. She was the widow of the late Rev. Samuel Kelly. She is survived by four children, of whom are: Rev. Gilby Kelly, of Nashville, Mrs. Florence Lockhart, of Paris.

CRAVENS.

On last Tuesday, at her home near Grassy Creek, of consumption, Mrs. Frank Cravens, aged about thirty years. Scripture reading at the grave by the Elder of the Somerset Christian Church of which Mrs. Cravens had long been a member.

PEEL.

Mrs. Ed Peel, daughter of Clifton Daniel, of this county, died at Tucson, Arizona, on Sunday morning, March 18th, 1900, after a short sickness. No particulars given. She married three months ago at Lexington. The body is expected here on Friday or Saturday.

HURT.

Wm. Hurt, of Columbia, Mo., brother of Col. J. S. Hurt, of this city, died at his home on yesterday morning. No particulars. He was a native of this county, but has lived in Missouri for many years. He was a highly respected and influential man.

TRIMBLE.

Mrs. Eliza Trimble died at her home near Forks of Elkhorn, six miles from Frankfort, Ky., on Friday evening, March 16th, 1900, after a sickness of three days.

The funeral service was held at the village Christian Church on Sunday morning conducted by Rev. Thos. N. Arnold, of Franklin county, and her nephew, Bruce W. Trimble, of this city. Nelson and J. G. Trimble Jr. also attended the service. The burial was in the Frankfort cemetery.

She was the daughter of Col. Jerry South and wife, and was the oldest of fifteen children, the youngest being the wife of Congressman T. Y. Fitzpatrick.

She was born Sept. 18th in Breathitt county, where she lived until 1859, when her father's family moved to Frankfort when he became Warden of the Kentucky penitentiary. At the close of his first term the family moved to the country, near the present home of the deceased. Here in 1863, she was married to Ashberry Trimble, of Hazel Green, Ky., brother of G. Trimble, of this city.

In the early fall of 1864 her husband was killed—leaving a son—South Trimble, present Representative of his county in the Legislature, and Speaker of the House.

She continued to live at Hazel Green until 1871 when she moved to Frankfort, her father having been re-elected Warden, since which time, she has lived in the city and county.

By nature she was endowed with fine mind; it was simple in her tastes and dress, caring but little for what may be designated as the "social life" of the Capital.

Owing to the connection of her father with Kentucky politics and public life, she was thrown much with many public men. She had clear cut ideas about the issues of the day and was a fine talker.

She was industrious, social in her sphere, kind and hospitable. Her chief crown was her strong and abiding faith in the Christ, and activity in His service.

During the childhood of the writer, she, for about eight years, was a prominent factor in the religious life of Hazel Green. She was gifted in prayer and instruction in the Sunday School, prayer meeting and other services of the Lord's house, and with pleasure he recalls her Godly life. If we mistake not, she was not so conspicuous in religious matters in Frankfort, except in her home.

During her residence in the country she has been a tower of strength for the little congregation blessed by her presence and untiring labor.

Some contributions are carried over till next week.

**MARRIAGES.**

COLLIER-GREER.

On March 1st at Frenchburg, Judge W. C. Taylor officiating, Mr. Ben Collier to Miss Ollie Greer. They are of the best people of Frenchburg and we extend hearty congratulations.

DAY-PERKINS.

On Wednesday at the home of Rev. D. W. Robertson, in this city, Mr. Day and Miss Perkins, of Sherburne, Ky., were married.

HEINRICH-MILLER.

Cards are out announcing the marriage of A. F. Heinrich, of Lexington, brother of Thomas Heinrich, of this city, to Miss Daisy Mae Miller, of the Borden Baptist Church, Borden, Indiana, on the 28th inst. Ceremony will be performed by Rev. W. C. Jones, of Louisville. Were acquainted with these most estimable young people. They have our hearty congratulations.

Dressmaking.

Mrs. Georgia Thompson and Mrs. Emma Thompson have opened a mantaumaking establishment in the front room over New York Store on E. Main St. They are well known in this community, and are fully acquainted with all the new 1900 spring and summer styles. They guarantee satisfaction in every particular, and ask a share of the patronage of the city.

**MARCH COUNTRY.**

Between 800 and 1,000 cattle on the market. Quality of stock was not good. Prices were very high, so high that sales were slow, and very little trading done up to noon.

The best 750 to 800 lb. steers brought 5 cts. Most of sales were below this figure. Yearlings sold at most any price that was asked and no good ones sold below 5 cts. Heifers at 3 1/2 to 4 cts. Cows at 3 1/2 to 3 3/4 cts. Canners sold universally high, some bringing 3 cts.

Some 120 lb. hogs sold at \$4 and a premium.

The day was a miserable nasty one, and taking everything into consideration, was unsatisfactory. We give some of the sales:

James Erwin, of Stanton, sold 41 yearling and two-year-old steers at 4 cts. Tom Davis sold 10 cows and two steers averaging about 900 lbs., at 3 1/2 cts; Davis & Jones sold to J. B. Stewart, of Bourbon county, one yoke of cattle at \$123.50, at least 5 cts; A. H. Hampton, of Clark county, bought of same party, one yoke of steers at \$122.50, weight about 2400 lbs. Keeton & Co., sold Ben Wills, of Clark county, 30 heifers, about 525 lbs., weight, at \$22.50; Ray Moss lbs., weight, at \$22.50; Ray Moss bought a lot of 700-lb. cows and heifers at 3 1/2 to 4 cts; O. H. Downing sold 100 118-lb. hogs to Cap Gillispie at \$4 and a premium. There was a lot of cattle not sold at night.

**HORSES AND MULES.**

"The mule trade was not so brisk" A good many in town, but very few good ones. We noticed a 10 hand mare mule at \$145. Most of the sales at \$75 to \$110 head. Horse trade was about as usual. Some of some plug horses at from \$40 to \$65, a few sold as high as \$75.

See price display at the Guthrie Clothing Co.'s next Friday and Saturday.

## THIN HAIR

Lots of people have thin hair. Perhaps their parents had thin hair; perhaps their children have thin hair. But this does not make it necessary for them to have thin hair.

One thing you may rely upon—

### AYER'S Hair Vigor

makes the hair healthy and vigorous; makes it grow thick and long. It cures dandruff also.

It always restores color to gray hair, all the dark, rich color of early life. There is no longer need of your looking old before your time.

\$1.00 a bottle. All druggists.

"As a remedy for restoring color to the hair I believe Ayer's Hair Vigor has no equal. It has always given me perfect satisfaction in every way."

Mrs. A. M. STERLING, Aug. 18, 1896, Hammondport, N.Y.

Write the Doctor.

He will send you a book on The Hair and scalp free, upon request. If you do not obtain all the benefits you expect from the use of the Vigor write the Doctor about it.

Address, Dr. J. C. AYER, Lowell, Mass.

### Goebel Monument Fund.

Numerous suggestions have been received that the people for whom William Goebel labored and for whom he gave his life, should be permitted to contribute to a fund to be used in the erection of a monument to his memory at Frankfort, Ky.

Acting upon these suggestions the undersigned citizens of Kentucky do now offer this opportunity to all those who desire to join in this testimony to the sterling worth, the great intellect, the truth, the honor and the courage of this martyr to the cause of civil liberty and the prosperity and happiness of the whole people, to contribute such sums as they may wish to the perpetuation in marble of that which will live in their hearts—a loving memory of William Goebel.

Every contribution will be acknowledged by the committeeman to whom it is sent, by a certificate which will be a memento.

Those who feel able to give only small amounts should not hesitate to contribute, as this fund is created for the purpose of affording a loving people an opportunity to participate in a love offering. An organization of the committeemen has been formed for carrying out the purpose of the contributors.

The above is a circular distributed over the State. The committeemen designated to receive funds in this county are J. S. Frazier, cashier of the Exchange Bank; G. W. Baird, cashier of the Traders Deposit Bank; W. B. O'Connell, County Clerk; N. R. Bright, Circuit Clerk; M. O. Cockrell and W. F. Horton.

Americans are known as a dyspeptic people. The extent of this disease may be inferred from the multitude of so called "medicines" offered as a remedy. They are often in tablet form and have no value except as palliatives of the immediate effects of dyspepsia. The man who used them may feel better but is surely getting worse. They do not touch the real cause of the disease. Dr. Pierce's Golden Medical Discovery is a medicine specially prepared to cure diseases of the stomach and organs of digestion and nutrition. It is not made to give temporary relief but to effect permanent cure. In ninety-eight cases out of every hundred it cures perfectly and permanently.

It has cost Dr. Pierce \$25,000 to give away in the last year the copies of his People's Common Sense Medical Adviser, which have been applied for. This book of 1008 pages is sent free on receipt of "one cent stamps to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

### THE CONUNDRUM CLUB.

A Puzzle Offered by One of the Members.

They had started a conundrum club, and everyone was expected to come prepared with a number of good ones.

"I've got one," Anderson said. "What is it?" queried the rest.

"When is an apple pie?" He stopped, and everyone looked at him, but said nothing.

"Well," asked a man across the room, "go on. What did you stop there for?"

"Go on? Where? What for?" he asked.

"Why, go on with your conundrum. When is an apple pie?"

"That's what I said," he replied.

"Well, we know; but what is the conundrum?"

"When is an apple pie?"

"There isn't any sense in that," put in another fellow. "What's the rest of it?"

"There isn't any rest," persisted Anderson. "When is an apple pie?"

"When is an apple pie?" yelled the others.

"Who said any apple pie what?" you did."

"I didn't. I didn't say anything about an apple pie."

"You did."

"I didn't."

"You did."

"I didn't."

And then the whole assembly sat on Anderson, and when the police came in and rescued him it took half an hour to explain that an apple was pie when it was closed up with sugar and crust and things, like any pastry. It smashed up the club, though, and the conundrum's usefulness is that far established.—London Tit-Bits.

### SURPRISED HER HOST.

Successful Authoress Who Wrote Over a

MacArthur, author of a successful study of life in the Latin Quarter of Paris, which brought to the writer both popularity and profit, is also the pupil and biographer of Rubinstein and is a close friend of Paderewski. The author lived for two years in St. Petersburg, corresponding for the London press, and taking part in some thrilling adventures, but the most singular of the writer's experiences happened in Chicago after the novel had been brought out by a publisher of that city. The book had been so successful that the publisher decided to give the author a dinner to which a dozen of the leading men of letters in the Lake City were invited. The guests had assembled when the author was announced.

Through the blue haze of smoke there appeared a handsome young woman attired in evening dress.

"We are expecting Mr. MacArthur," said the host; "Mr. Alexander MacArthur, the novelist."

"So I understood," returned the unexpected guest. "I am Alexander MacArthur."

"You?" gasped the publisher.

"Yes. Didn't you know? I am Lillian MacArthur, at your service. I have been writing over the name of Alexander ever since I left my home in Dublin."

It was only the work of a minute to rearrange affairs, and the dinner was a great success.—Saturday Evening Post.

### SYSTEM OF CHAPERONAGE.

Not as Rigid in America as on the Continent.

In the old world the system of chaperonage is very rigid indeed. In Europe young girls are taken care of as though they were the most precious pieces of porcelain. They are surrounded by a high wall of conventionalities that it is impossible to break down or vault over.

For a young girl to appear alone on a public street in many of the large European cities is to at once lay herself open to insult. In America, thank Heaven, the men are more chivalrous and gallant, and it is possible for a young lady to travel unattended from one city to another without the fear of being molested.

In the large eastern cities girls are most carefully chaperoned on all occasions. In many of the cities of the south there is greater latitude allowed, although in New Orleans, where French customs prevail, a girl may scarcely cross the street without the attendance of an elderly woman or her negro maid.—Cincinnati Commercial Tribune.

Keep your mouth closed while riding. This same advice should be followed more or less when you are off the wheel.

### "Housework is hard work without Gold Dust"

**WASHING WOOLEN BLANKETS**

The theory now is, that blankets must be washed instead of dry-cleaned to be healthy. To have your blankets as soft as new, and to keep them in a tub of warm water by using Gold Dust.

**Gold Dust Washing Powder**

and soak a blanket in it for half an hour; then simply move it around and rub the soiled spots; place in warm water of the same temperature as the one in which you wash it, hang up in a warm place or wringer, and you will have what a host, while blanket you will have.

The above is taken from our booklet "WASHING WOOLEN BLANKETS" sent free on request.
